

05-624

My name is Harry T Collins AND I'm currently in S VOP Center and this is my story up and until now, what will happen next I shutter to wonder at this time,

I left Bander Hill and went to C, VOP Center, the next day that I was there, the Captain called me in his office and ask me if I would sign off on all the beerivances that I had on medical in Bander Hill, I told him that I couldn't do that, thats when strange things started to happen.

First I was refused to be seen by a Doctor there because of my current law suite And then the man that was next to me on the pod, got wrote up several times and went in front of the M.D.t board And they gave him 2 weeks sanction down here at S VOP. And sent him back on the pod until the next week when he would be transferred.

Well this man started and started until he broke and hit me in the process, I then inform the C/O, Miller of what happen And she took me off the pod and put me on pod 3, it took the inmates 10 minutes to figure out that I had told on the other guy that hit me, and at that time they told me that I should move to another bunk because the one that the C/O put me into was not a good place at the time. So I moved away from them just to keep peace, because I didn't want anything to happen to me when I was sleeping, the C/O who moved me to that bed came back and I told him that it was told to me that would be better off away from them

So I moved and he told me to move back and I told him that my life was threaten and that I wouldn't move back to that spot, he then called a code on my and they take me out and hand over me, but C/O Sgt Floor Cheek put the hand cuff on wrong and did nerve damage to my thumb. Which is still bothering me. They had stuck me in a holding cell and I stayed there from Sunday until Thursday, until they transferred me down here. I spent 15 hours a day in the holding cell with no mattress, they only gave it to me at night to sleep with and then take it in the morning, I was denied my legal work and also my bible, I was constantly insulted by one Lt Donna Michael with names like bitch and mother fucker ect ect, Monday which was the next day when they put me in the holding cell she made a statement that she was going to enjoy sending me down S.Vop, to sell logs, so I knew right there. And then that I wasn't going to get a fair hearing.

On Tuesday she finally offered me a shower, that was the fourth day in the holding cell and the only reason she offered me a shower then is because her superior, Captain May, had come back to work and I told her that, she really piss me off then. I was also insulted by one C/O Hotterman and on Wednesday morning I didn't eat my breakfast fast enough for him so he took it back from me, I told him that I needed that food because I was hyperglycemic with my sugars gets really low, well later that day I went into shock, not real bad but enough.

Also Thursday before I was transferred to S, VOP that morning I had saved a banana from breakfast and Mrs Michael came in and took it from me, her and Mr Hooterman now I had low sugar, but they didn't care, I could off had a heart attack and they would probly have done nothing, but thats speculation, I'll sit to the facts

Wednesday the held what they called a emergency M.D.T board and Mr McDowell held it but Mr Hooterman the man that I was having trouble with recommended 45 days sanction, which according to every one I talk to was way to much, I was not judge by a imparcal hearing people, they already now what they were going to do before they did it

I pointed out the fact that it was there fault in the first place for putting Mr Kelly back on the job after giving him 3 weeks down shop, and thats really when Mr McDowell blew up, you see they don't want to admit when there wrong, they have had nothing but problems in the passed from the man who hit me, if it would had been any other place they wouldn't have done what they did with Mr Kelly

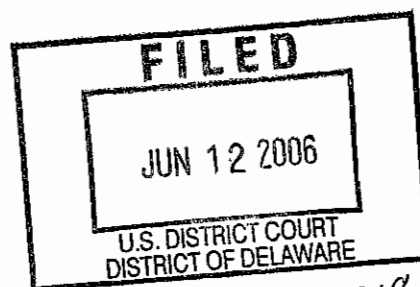

I also stated that I wanted to press charges on Mr Kelly for hitting me but they never did that either

Now Captain May came back to told him everything that I'm writing here, and he said to me, what you don't like black people, I said were did you get that from, and he also told me that he didn't what me back at E, VOP and called down here and told them that I didn't like black people, because they ask me about it when I come in the door.

I know in my heart that I was going to have problems because of my low score, also I take any lie detector test you have to prove that every thing I wrote here is the truth, just ask them if they would do the same, even now I have witnesses as to what happen and I'm writing names down here of people who were at C, VOP who have had similar problems, there making shame that I never made it to work release and that I spend all my time right here, and if that happens I'll walk out of here with no money and no place to go, but I know one thing I'll go right to the news journal and expose this so called level 4 facility, because according to TIS regulations you only require 9 hours of supervision at a level 4 program, C, VOP, is worst than max in ~~any~~ <sup>anywhere</sup>

Sincerely Yours
